

THRIFT SAVINGS PLAN REQUEST TO CALCULATE BREAKAGE

TSP-U-5-B

As a result of the National Defense Authorization Act of 2016, Thrift Savings Plan (TSP) contributions from newly enrolled uniformed service members and new beneficiary participants are invested in the age-appropriate Lifecycle (L) Fund until the participant makes another investment election. The TSP must rely on the participant's date of birth in order to accurately determine the age-appropriate L Fund. (See TSP Bulletin 15-2.)

Use this form to request that the TSP calculate breakage for a participant whose contributions were invested in the wrong L Fund due to the service's submitting an incorrect date of birth. The TSP will charge the employing service for positive breakage caused by such errors.

Note: The participant is entitled to breakage if the date of birth error is identified within 30 days of the TSP's welcome letter to the participant. The service may use its sound discretion in deciding whether to pay breakage after that time, but in any event must act promptly in doing so.

Fax the form to: **Thrift Savings Plan
